MADAGASCAR

HOW TO READ THE COUNTRY PROFILE

All data presented on this visual aid are self-reported by the Ministry of Health (MoH), development partners (6 DPs out of 21 participated), civil society organisations (8 CSOs participated) and private sector representatives (6 PS participated) supporting the health sector. All data provided by DPs, CSOs and PS have in principle been validated by MoH.

The 8 Effective Development Cooperation (EDC) practices in health are captured in 4 commitments. The first three commitments present the performance of the government and DPs against 6 EDC practices. The last commitment also includes the opinion of the CSOs and PS on the EDC practices relevant to their engagement.

Where possible, trends in performance are documented over 4 monitoring rounds (2007, 2011, 2013 and 2015). When relevant, a comment relative to the EDC practice is provided in a text box.

For more detailed and disaggregated information on the data presented please visit www.internationalhealthpartnership.net/madagascar.

COMMITMENT

TO ESTABLISH STRONG HEALTH SECTOR
STRATEGIES WHICH ARE JOINTLY ASSESSED,
AND STRENGTHEN ACCOUNTABILITY

COMMITMENT

TO IMPROVE THE FINANCING, PREDICTABILITY AND FINANCIAL MANAGEMENT OF THE HEALTH SECTOR

2016 IHP+ MONITORING ROUND

COMMITMENT

TO ESTABLISH, STRENGTHEN AND USE COUNTRY SYSTEMS

0%

0% of participating DPs confirm that sufficient support on PFM systems strengthening and capacity building is in place.

PFM is rarely or less used when the CPIA score is less than 3.5.

PROCUREMENT AND SUPPLY SYSTEMS ARE STRENGTHENED AND USED

A government plan for national procurement and supply exist?

17% of participating DPs use the national procurement and supply systems.

17%

17% of participating DPs confirm that sufficient support on procurement or supply systems strengthening and capacity building is in place.

A procurement reform plan was available during the 2011-2012 period, but not supported by the partners. For the HIV programme, the MOH has a procurement plan.

TECHNICAL SUPPORT IS COORDINATED AND SOUTH-SOUTH COOPERATION SUPPORTS LEARNING

An agreed national TA plan exists?

N/A of participating DPs provide TA in line with the national plan.

Does the Ministry of Health benefit from south-south cooperation?

67% of participating DPs support South-South cooperation.

As there is no technical assistance plan, the MPH proposes their needs to the partners as required or the partners propose to the MPH their technical assistance suggestions for validation.

COMMITMENT

TO CREATE AN ENABLING ENVIRONMENT FOR CIVIL SOCIETY ORGANISATIONS AND PRIVATE SECTOR PARTICIPATION IN THE HEALTH SECTOR

CIVIL SOCIETY ORGANISATIONS ENGAGEMENT

What space does the **government** provide for CSOs to effectively participate in health sector policy, planning and monitoring? (Sources: Government qualitative survey and CSO online survey)

Government consults CSOs in the design, implementation or monitoring of national health policies

50% of CSOs confirm they are consulted

Government provides financial resources

13% of CSOs receive financial resources

Government provides training support

13% of CSOs receive training support

How effectively is the participation of CSOs in national health policy processes supported by **development partners**? (Sources: DP qualitative surveys and CSO online survey)

100% of DPs consult CSOs when developing their cooperation programme

50% of DPs provide financial resources

50% of DPs provide technical assistance

86% of CSO's confirm they are consulted

50% of CSO's receive financial resources

17% of CSO's receive technical assistance

PRIVATE SECTOR ENGAGEMENT

The professional organisations want the MPH and the DPs to consider them as full partners and to be included in the process of developing the country's main objectives. Trade unions want to be treated as social actors who can be consulted when making major decisions. The private sector suggests the development of a TOR to fix their contribution to health development.

The private sector also prefers a- strong involvement of the employers; this involvement should be institutionalised by the MPH.
