UHC 2030

TWG TRANSITION AND SUSTAINABILITY

MONTREUX, NOVEMBER 3TH 2017

How can the TWG support transition and sustainability to achieve UHC?

Purpose: To gather inputs for a collaborative agenda on transition and sustainability and highlight action needed by different actors

Questions to think about in each group:

What can the group bring to the agenda over and above the individual organisation?

What are the **priority** areas the group will focus on going forward?

How might the group support these areas – what activities can be planned?
What actions are required and by whom (country, global, sub-groups formed etc)?
