International UHC Day Coordination Group

Ver. 2023

Background

In 2014, the Universal Health Coverage Coalition started to celebrate December 12 as ‘UHC Day’, to commemorate the date on which the UN General Assembly (A/RES/67/81) officially recognized the importance of universal health coverage (UHC). Since then, the day has become the annual rallying point for the growing global movement for Health for All. With advocacy efforts of UHC2030 and its partners, on December 12, 2017, the UN General Assembly proclaimed December 12 as International Universal Health Coverage Day (A/RES/72/138), making it an official UN-designated day (UHC Day).

In 2017, UHC2030 organized a mass public gathering event on the margins of the UHC Forum 2017 in Tokyo to celebrate the official recognition of UHC Day by the UN General Assembly. The theme of the UHC Day in 2017 was ‘Rising For Our Right To Universal Health Coverage’. In 2018, on behalf of the UN secretariat, UHC2030 started to convene a multi-stakeholder Coordination Group of International UHC Day (12.12.CG) to coordinate campaigns across the globe. The theme of the UHC Day in 2018 was ‘Unite for Universal Health Coverage: Now is the Time for Collective Action’. In 2019, the theme was ‘Keep the promise’ to emphasize accountability for political leaders to keep true to their commitments that were recorded in the Political Declaration that was adopted at the UN High-Level Meeting on UHC in September 2019 (UN HLM). In 2020, the UHC Day theme was ‘Health for All: Protect Everyone’ to capture the gravity of the COVID-19 pandemic situation, putting the world’s health systems — as well as leaders’ commitments to Health for All — to the test. In 2021, the UHC Day theme was “ and in 2022, ‘Build the World We Want: A Healthy Future for All (see all UHC Day campaign reports).

Opportunity

UHC Day aims to raise awareness of UHC. Each year on 12.12, UHC advocates have opportunities to raise their voices to ensure that everyone, everywhere, has access to quality and affordable health services, and to call on political leaders to legislate, invest and collaborate with all of society to make UHC a reality. The 2023 UHC Day will be an important opportunity to stimulate public and multi-stakeholder attention to the UHC agenda after the UN High-level Meeting on UHC in September 2023 and to ensure country leaders translate their political commitments into action. This UHC Day will also be an opportunity to make the bridge between the 2023 Political Declaration on UHC and the 2030 Agenda for Sustainable Development. By this UHC Day, UHC2030 will release the State of UHC Commitment Synthesis 2023 and a summary of the 2023 Political Declaration on UHC.

Scope of work

12.12.CG is a multi-stakeholder task team hosted by UHC2030. The UHC2030 Core Team serves 12.12.CG as the secretariat of this group. 12.12.CG is responsible for the following scope of the work:
Set the theme of the annual campaign, considering political and public attention of the year;
Develop a campaign microsite and other relevant campaign materials for UHC Day, building on existing efforts around the UHC movement;
Consult and reach out to relevant partners as necessary;
Map campaigns across the world to make it a united annual effort;
Leverage social media and partner networks to expand the reach of their campaigns; and
Provide guidance and tools to mobilize resources for campaigns at global and national levels.

Budget

UHC2030 will be responsible for ensuring overall coordination to support the UHC Day campaigns. This will include the mobilization of additional resources among partners potentially interested in supporting the production of free, accessible virtual campaign platforms and sharable digital materials.

Composition of Coordination Group Members

Members of the coordination group are designated every year. 10 main members + 10 alternate members (20 members in total) from the following multi-stakeholder representatives are part of the coordination group: UN secretariat (1+1); UN System (1+1); global health initiative/multilateral development bank (1+1); health-related partnership/health system related-initiative (1+1); national government/permanent mission (1+1); local government/parliamentarian network (1+1); civil society organization (1+1); philanthropic foundation (1+1); private sector (1+1); academia/thinktank (1+1).

All members of the coordination group are expected to proactively lead or contribute to the development and dissemination of the campaigns. Members of the coordination group from non-state actors must be either an organization holding the valid ECOSOC consultative status or a member organization of UHC2030 (i.e., endorsed the global compact for progress towards universal health coverage and passed WHO’s FENSA process).
