

Structure of the Health Systems Assessment Technical Working Group

Tiers:

- 1- **Core group:** Responsible for coordinating HSA TWG activities, guiding consultations and producing deliverables. The core group will include participants from the UHC2030 Core Team, WHO, WB and selected experts. All participants shall be actively involved during HSA TWG meetings, regular calls and emails exchange.
- 2- **Technical group:** A larger group who will provide technical comments and inputs on the WG deliverables, including country-level users of assessments. All the participants of the HSA TWG are invited to be part of this tier group. The participants shall play an active role in providing feedback on the deliverables and engage regularly during the TWG meetings including in person meeting and periodic calls.

Various constituencies are expected to be involved:

- Country representatives (Government, MoH & MoF; Private Sector; CSOs; possibly elected officials), notably policy makers and users of HSA tools
- Agencies / programmes that have an assessment tool in active use and/or apply them frequently
- Implementing partners, multi and bilateral donors
- Academia (those who conduct assessments for research purposes)

| Tier Groups | Definition | Participants |
|----------------------|---|--|
