

Introduction to working groups

UHC2030

World Health
Organization

YOUR TASK in the working groups

- Discuss draft sub-functions as represented in the taxonomy
- Review them as per 'good' sub-function criteria
- Consider alternative proposal for sub-functions and cross-check them again sub-function criteria

Suggested criteria for selecting sub-functions

- reflect and are a logical (preferably **self-contained/complementary**) components of the core functions

- assign **accountability** for actions/processes to a specific actor within the health system

- expressed as **specific actions**, conducive to the achievement of the high-level health system goals

- can be **described** or **measured, monitored** and **assessed** in relation to the high-level goals.

**Choose a
rapporteur in your
group !**

Working group session to examine sub-functions (and indicators) under each health system function:

- ❖ Working group 1: stewardship
- ❖ Working group 2: creating resources
- ❖ Working group 3: financing
- ❖ Working group 4: delivering services

**Feedback Session is on
DAY 2 Morning**

1) Preliminary findings & results (incl. agreed sub-functions and suggested additional sub-functions)
2) Challenges
3) Possible ideas / options to overcome those challenges
4) Open questions
5) Support that might be needed for the next steps (i.e. logistics, facilitation)

Governance
