A man in a white lab coat is shown in profile, looking down at a stack of papers he is holding. He is surrounded by a group of people, including women wearing colorful headscarves (yellow, white, purple) and a man. They appear to be in a community or health center setting, with a bicycle and some people sitting on a bench in the background. The scene is dimly lit, with the text overlaid in white.

# UHC2030's Contribution to SDG process

## Added value of UHC2030 as a multi-stakeholder partnership:

1. Coordinate annual International UHC Day campaigns with multi-stakeholder partners to maintain the political momentum of UHC both global and country level.
2. Support countries to strengthen multi-stakeholder engagement in VNRs that feed into the HLPF in 2020.
3. Contribute to planning for HLM-UHC in 2019, facilitating multi-stakeholder engagement to feed into the political declaration. We propose and promote that the HLM-UHC declaration could advocate for the following 7 points:

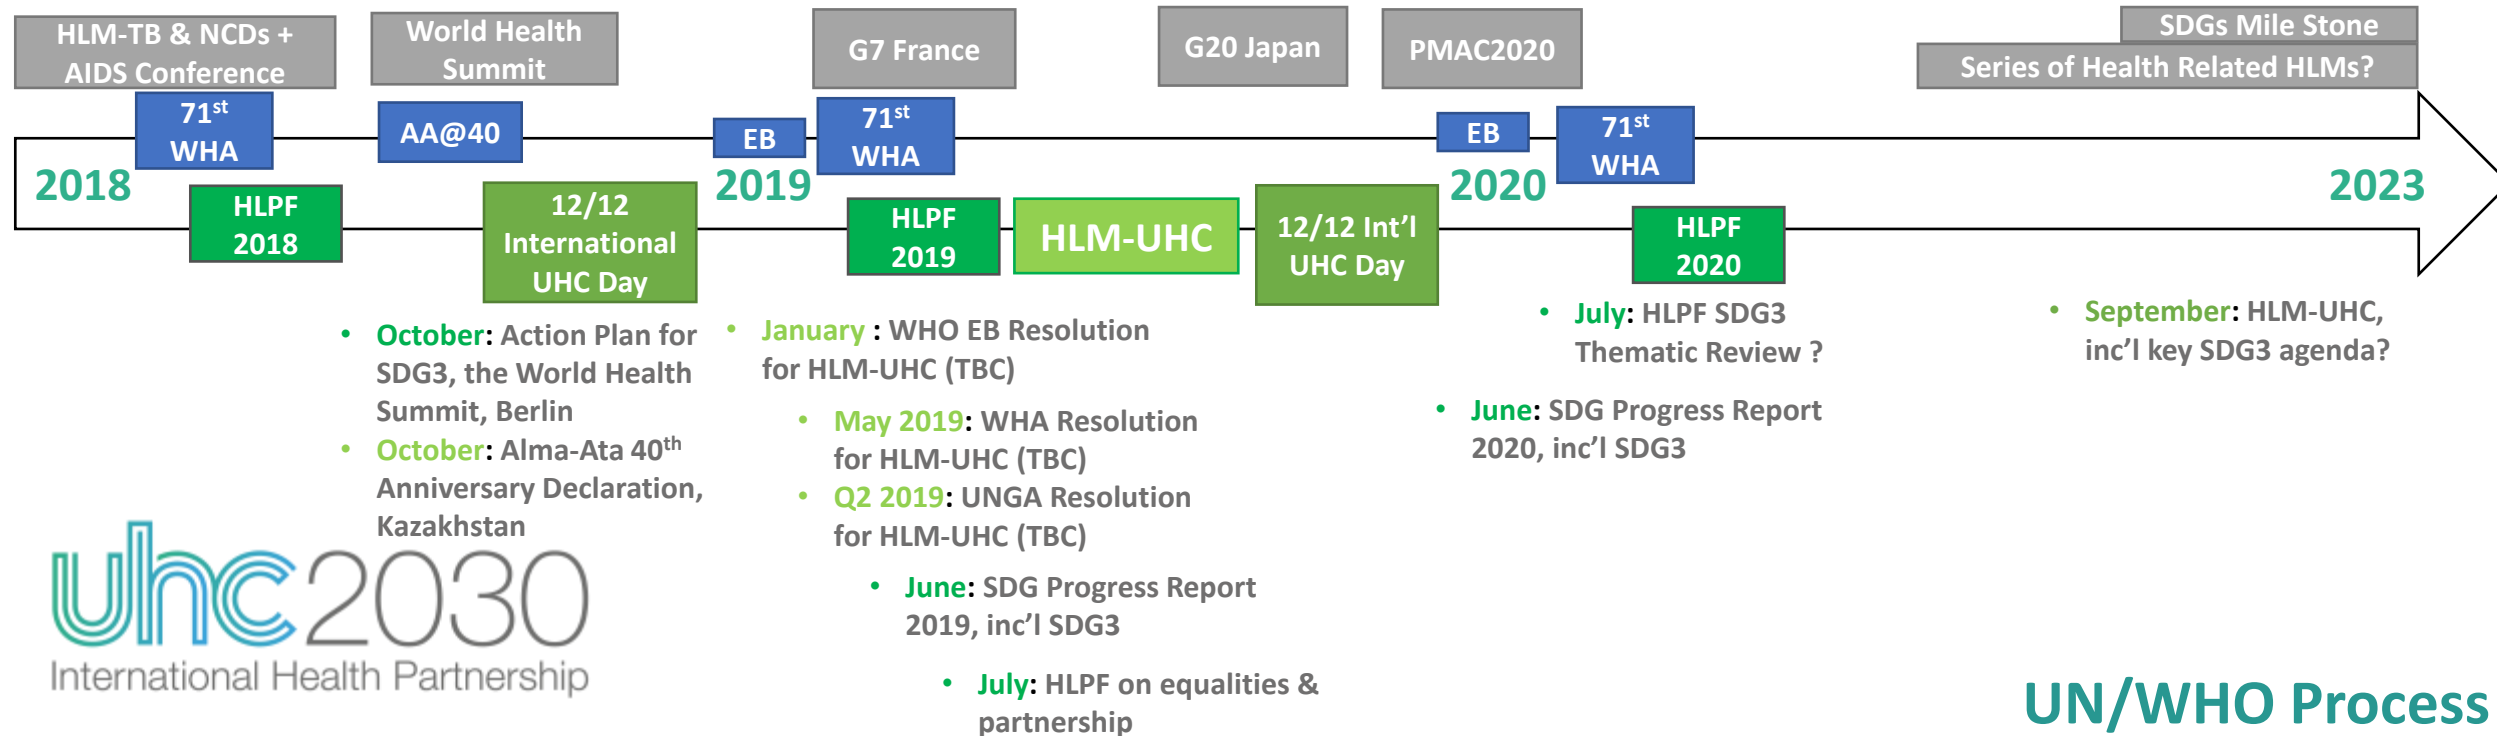

## What are potential added values of HLM-UHC to complete the missing pieces?

- **SDG Progress Report 2019:** Increased data availability and effective use of SDG Indicators 3.8.1 and 3.8.2 (i.e. service coverage & financial protection);
- **HLPF2019/2020 Thematic Review & VNRs process:** Strengthened domestic multi-stakeholder accountability mechanisms that feed into SDG3 official accountability processes, including the VNRs & thematic review for HLPF;
- **Action Plan for SDG3:** Reaffirm the opportunity of UHC as an overarching umbrella for achieving SDG3, with greater collaboration and harmonization across sub-sectoral health constituencies at country and global levels;
- **FfD AAA & UN-HLC on Health Employment and Economic Growth & Health SDG Price tag:** Promote more domestic public financing for health & better alignment of health investments to achieve health related SDGs;
- **Global Compact for progress towards UHC:** Support key principle of UHC2030 & joint vision;
- **AA@40 Political Declaration & UHC Menu:** Emphasize quality & integrated people-centered health services & strong referral system to increase effective coverage;
- **FPGH resolutions:** “Sustainable financing mechanisms for universal health coverage (RES/2012)” and “Addressing the health of the most vulnerable for an inclusive society (RES/2017)”.

# Potential Timeline in 2018-2023

# Discussion and Decision points

## Discussion points:

- Discuss UHC2030's contribution to the SDG process & timeline for the implementation
- Brainstorm potential added value of the HLM-UHC 2019 declaration to the UHC movement

## Decision points:

- Approve the ToR for the International UHC Day Coordination Group
- Approve the ToR for the Global Accountability Strategy Group
- Agree to send co-chair letters to UN Secretary General & President of General Assembly on behalf of UHC2030 to offer our support

# Initial Inputs from Selected SC Members
