

WHA 2017 – Briefing session

Civil Society Engagement Mechanisms (CSEM) for UHC2030: Where are we and how to engage?

UHC2030, launched during UNGA 2016, will have its first Steering Committee in June 2017. The Civil Society Engagement Mechanism (CSEM) will be a critical contributor to UHC2030, providing an organised and effective way for CSO voices to be heard within the UHC agenda. It will ensure systematic attention is given to the needs of the most marginalised and vulnerable populations to ensure no one is left behind. The CSEM seeks to strengthen an inclusive and broad movement on UHC and Health System Strengthening, influence policy design and implementation, strengthen citizen-led and promote harmonisation between CSO platforms and networks working on health related issues. To achieve this goal, an interim secretariat together with a pre-advisory group composed of 26 NGOs from diverse region and countries have been working together on the initial first steps of the CSEM.

Where are we now? How UHC2030 is working? When the CSEM will be fully operational? How to get engage and what for?

Wednesday 24 May – 8am to 10am

*1 rue Varembé, 1202 Geneva – Place des Nations –
