COMOROS

2016 IHP+ MONITORING ROUND
National performance review

HOW TO READ THE COUNTRY PROFILE
All data presented on this visual aid are self-reported by the Ministry of Health (MoH), development partners (5 DPs out of 23 participated), civil society organisations (13 CSOs participated) and private sector representatives (19 PS participated) supporting the health sector. All data provided by DPs, CSOs and PS have in principle been validated by MoH.

The 8 Effective Development Cooperation (EDC) practices in health are captured in 4 commitments. The first three commitments present the performance of the government and DPs against 6 EDC practices. The last commitment also includes the opinion of the CSOs and PS on the EDC practices relevant to their engagement.

Where possible, trends in performance are documented over 4 monitoring rounds (2007, 2011, 2013 and 2015). When relevant, a comment relative to the EDC practice is provided in a text box.

For more detailed and disaggregated information on the data presented please visit www.internationalhealthpartnership.net/comoros.

COMMITMENT
TO ESTABLISH STRONG HEALTH SECTOR STRATEGIES WHICH ARE JOINTLY ASSESSED, AND STRENGTHEN ACCOUNTABILITY

PARTNERS SUPPORT A SINGLE NATIONAL HEALTH STRATEGY
Alignment of support against the Health Sector Strategy
Target 100%
100% of participating DPs confirm they align their support with the national (or sub-national /sector) Health Sector Strategy.

Was the national health sector plan jointly assessed?

DPs 80%
CSOs 100%
PS Did not participate in mutual accountability processes

Stakeholders that supported the joint assessment

MUTUAL ACCOUNTABILITY IS STRENGTHENED
A national M&E plan for the National Health Strategy exists?
Target 100%

40% of participating DPs only use national health sector indicators to monitor their support.

100% of participating DPs confirm they participated in the mutual accountability processes.

HEALTH DEVELOPMENT COOPERATION IS MORE PREDICTABLE
Government funds disbursed according to agreed schedules

Predictability of funds for the future
Rolling 3 year budget or Mid-Term Expenditure Framework in place:
2005/07 2010/11 2012/13 2014/15

60% of participating DPs have communicated their planned resources for the next 3 years to the MoH.

The Global Fund, UNICEF and UNFPA provide grants to the MoH for (at least) 3 years, WHO for 2 years. The AFD presents an annual programme budget, but financing of the whole programme is communicated to the MoH once signed (3 to 5 years).

Data for 3 DPs only (AFD, Global Fund and WHO). Note that registration is often made a posteriori to the approval of the annual budget by the National Assembly.

HEALTH AID IS ON BUDGET
% of DP funds reported on budget

Target 85%
100%

Data for 3 DPs only (AFD, Global Fund and WHO). Note that registration is often made a posteriori to the approval of the annual budget by the National Assembly.

2016 IHP+ MONITORING ROUND
IHP results
**COMMITMENT**

TO ESTABLISH, STRENGTHEN AND USE COUNTRY SYSTEMS

**PUBLIC FINANCIAL MANAGEMENT (PFM) SYSTEMS ARE STRENGTHENED AND USED**

Are PFM systems of sufficiently good quality?

Source: World Bank, CPIA data 2014

40% 40% of participating DPs confirm that sufficient support on PFM systems strengthening and capacity building is in place.

Implementation of a PFM (public finance management) system is currently being considered with the support of some DPs. Currently, all DPs use their own management system, which is sometimes harmonized within groups of agencies.

**PROCUREMENT AND SUPPLY SYSTEMS ARE STRENGTHENED AND USED**

A government plan for national procurement and supply exist?

20% 20% of participating DPs use the national procurement and supply systems.

The majority of the DPs that procure supplies both globally and regionally are accustomed to their own supply system which they consider satisfactory.

**TECHNICAL SUPPORT IS COORDINATED AND SOUTH-SOUTH COOPERATION SUPPORTS LEARNING**

An agreed national TA plan exists?

0% 0% of participating DPs provide TA in line with the national plan.

Does the Ministry of Health benefit from south-south cooperation?

100% 100% of participating DPs support South-South cooperation.

Each DP provides technical assistance on the basis of a bilateral agreement with the government.

**PRIVATE SECTOR ENGAGEMENT**

Goverments believe that the PS is increasingly being invited to participate in national health policy processes.

The TFPs (Technical and Financial Partners) indicate that many barriers hinder participation of the PS in their programmes.

The little information available on the activities of PS actors is a constraint (little or no participation in the NHIS).

No well-defined regulatory framework for development of public-private partnerships.

**COMMITMENT**

TO CREATE AN ENABLING ENVIRONMENT FOR CIVIL SOCIETY ORGANISATIONS AND PRIVATE SECTOR PARTICIPATION IN THE HEALTH SECTOR

**CIVIL SOCIETY ORGANISATIONS ENGAGEMENT**

What space does the government provide for CSOs to effectively participate in health sector policy, planning and monitoring? (Sources: Government qualitative survey and CSO online survey)

- Government consults CSOs in the design, implementation or monitoring of national health policies
- 23% of CSOs confirm they are consulted
- Government provides financial resources
- 15% of CSOs receive financial resources
- Government provides training support
- 8% of CSOs receive training support

How effectively is the participation of CSOs in national health policy processes supported by development partners? (Sources: DP qualitative surveys and CSO online survey)

- 80% of DPs consult CSOs when developing their cooperation programme
- 80% of DPs provide technical assistance
- 50% of CSOs receive financial resources
- 40% of CSOs receive technical assistance

**PUBLIC FINANCIAL MANAGEMENT (PFM) SYSTEMS ARE STRENGTHENED AND USED**

What space does the government provide for CSOs to effectively participate in health sector policy, planning and monitoring? (Sources: Government qualitative survey and CSO online survey)

- Government consults CSOs in the design, implementation or monitoring of national health policies
- 23% of CSOs confirm they are consulted
- Government provides financial resources
- 15% of CSOs receive financial resources
- Government provides training support
- 8% of CSOs receive training support

How effectively is the participation of CSOs in national health policy processes supported by development partners? (Sources: DP qualitative surveys and CSO online survey)

- 80% of DPs consult CSOs when developing their cooperation programme
- 80% of DPs provide technical assistance
- 50% of CSOs receive financial resources
- 40% of CSOs receive technical assistance

**PRIVATE SECTOR ENGAGEMENT**

Goverments believe that the PS is increasingly being invited to participate in national health policy processes.

The TFPs (Technical and Financial Partners) indicate that many barriers hinder participation of the PS in their programmes.

The little information available on the activities of PS actors is a constraint (little or no participation in the NHIS).

No well-defined regulatory framework for development of public-private partnerships.
