2016 IHP+ MONITORING ROUND National performance review

HOW TO READ THE COUNTRY PROFILE

All data presented on this visual aid are self-reported by the Ministry of Health (MoH), development partners (12 DPs out of 19 participated), civil society organisations (16 CSOs participated) and private sector representatives (12 PS participated) supporting the health sector. All data provided by DPs, CSOs and PS have in principle been validated by MoH.

The 8 Effective Development Cooperation (EDC) practices in health are captured in 4 commitments. The first three commitments present the performance of the government and DPs against 6 EDC practices. The last commitment also includes the opinion of the CSOs and PS on the EDC practices relevant to their engagement.

Where possible, trends in performance are documented over 4 monitoring rounds (2007, 2011, 2013 and 2015). When relevant, a comment relative to the EDC practice is provided in a text box.

For more detailed and disaggregated information on the data presented please visit www.internationalhealthpartnership.net/drc.
