COMMITMENT
TO ESTABLISH STRONG HEALTH SECTOR STRATEGIES WHICH ARE JOINTLY ASSESSED, AND STRENGTHEN ACCOUNTABILITY

Alignment of support against the Health Sector Strategy

100% of participating DPs confirm they align their support with the national (or sub-national /sector) Health Sector Strategy.

Was the national health sector plan jointly assessed?

DP 67%  
CSO  
PS  

Stakeholders that supported the joint assessment

There has been no joint assessment of the national plan, but there have been joint assessments on HIV, TB, malaria and Food and Nutritional Security programmes.

MUTUAL ACCOUNTABILITY IS STRENGTHENED

A national M&E plan for the National Health Strategy exists?

Target 100%

17% of participating DPs only use national health sector indicators to monitor their support.

Target 100%

33% of participating DPs confirm they participated in the mutual accountability processes.

The Global Fund uses the national information system in its projects. The DPs use agency specific monitoring indicators.

HEALTH DEVELOPMENT COOPERATION IS MORE PREDICTABLE

Government funds disbursed according to agreed schedules

2016 IHP+ MONITORING ROUND
National performance review

HOW TO READ THE COUNTRY PROFILE
All data presented on this visual aid are self-reported by the Ministry of Health (MoH), development partners (6 DPs out of 12 participated), civil society organisations (6 CSOs participated) and private sector representatives (0 PS participated) supporting the health sector. All data provided by DPs, CSOs and PS have in principle been validated by MoH.

The 8 Effective Development Cooperation (EDC) practices in health are captured in 4 commitments. The first three commitments present the performance of the government and DPs against 6 EDC practices. The last commitment also includes the opinion of the CSOs and PS on the EDC practices relevant to their engagement.

Where possible, trends in performance are documented over 4 monitoring rounds (2007, 2011, 2013 and 2015). When relevant, a comment relative to the EDC practice is provided in a text box.

For more detailed and disaggregated information on the data presented please visit www.internationalhealthpartnership.net/elsalvador.

EL SALVADOR

2016 IHP+ MONITORING ROUND
